

Brad Pickering

FIRM TITLE - Associate
ROLE - Operations Profitability
EXPERIENCE - 10 Years

SPECIALIZATION

- Operational Strategies & Efficiencies
- Project Management & Acceleration of Results
- Manufacturing Processes & Program Design
- Sustainability Program Design

RELEVANT EXPERIENCE

Brad possesses a unique blend of technical and business acumen acquired through his experience as a Professional Engineer and MBA. He develops formal processes to drive additional profits from operations as an integrated member of operational and management teams. Brad increases efficiency by reducing waste during production and modifying the manufacturing process.

With over 10 years of Management and Engineering experience in North America, Latin America, Europe and Asia, Brad has developed strong cross cultural abilities. A seasoned traveler to over 30 countries, Brad is able to conduct business in English or Spanish allowing him to lead diverse international teams. Having worked with major multi-national companies, Brad is well respected as an innovator in the manufacturing sector.
