Mr. Geoff Garden,
MIHI Group

Dear Geoff:

We would like to take this opportunity to commend the MIHI team with respect to the assistance they have been able to give our company over the last year and an half. This has been a period of tremendous change for us as we move to consolidate the success we have had so far and structure ourselves for the future. Using your ESP Program, MIHI has been instrumental in guiding LifeQuest through a complete review of our existing operation and the development of the strategy for our future. This was accomplished at the same time as providing advice through negotiations around a potential merger. We also appreciate the practical help the MIHI has provided in the placement of an interim Chief Operating Officer as we move to implement our plans.

We believe that MIHI has been instrumental in the revamping of our day to day operation as well as the charting of our plans for the future. We believe that the ESP Program has resulted in the development of both a plan of action and the tools to get it done.

We greatly appreciate the time that was taken to truly understand our unique situation and the structure of your ESP Program has really produced results for us in executing to our plan.

Regards,

A handwritten signature in purple ink, appearing to read 'Carl A. Laskin', with a long horizontal flourish extending to the right.
